Version for the visually impaired

The head of the Department of Internal Affairs of the Pinsk City Department of Internal Affairs, Yuri Akimovich Kutsevich, held a conversation with students on the prevention of delinquency and crime. The purpose of the conversation is to prevent crime and delinquency among minors, to educate students' legal consciousness. The chosen topic for the meeting, "Offence, crime and teenagers," is relevant today, since not every teenager is aware of the illegal acts they commit, which lead to serious and difficult-to-correct consequences.
