https://gomel.gov.by/ru/news/v-gomele-sostoyalsya-brifing-posvyashchyennyy-voprosam-prestupnosti-sredi-nesovershennoletnikh/

Firefox detected a potential security threat and did not continue to **integral.by**. If you visit this site, attackers could try to steal information like your passwords, emails, or credit card details.

What can you do about it?

Probably nothing, since it’s likely there’s a problem with the site itself.

You can continue with your default DNS resolver. However, a third-party might be able to see what websites you visit.

https://integral.by/company/korporativnaya-zhizn/?special=Y
