"Watercolor Mood" by Ekaterina Mokhoreva

Category: Library News

8 2877

An exhibition of watercolours and graphics by Ekaterina Mokhoreva, "Watercolour Mood", has opened in the Autograph Museum of the A.I. Herzen Central City Library. The exhibition features 16 works in watercolour technique. The exhibition is complemented by graphic works in the form of illustrations for children's colouring books.

Watercolors by Ekaterina Mokhoreva are light, transparent, and captivating in their freshness. They do not have stormy plots or any drama, they are warm and calm. Flowers are the decoration of the earth. Flowers are the decoration of summer. Flowers are the soul of an angel, bringing bright hope and good news to our world. Without flowers, earthly life would completely lose its charm. Looking at the works, you feel peace and delight. Watercolors are filled with lightness, airiness, transparency and good mood - this is what captivates you most.

Ekaterina Mokhoreva was born in Gomel. She received her professional art education in Gomel and Bryansk. She worked as a teacher of fine arts, a research fellow at the Rechitsa Crafts Center, a teacher at the Gomel City Center for Additional Education for Children and Youth. Currently, she works as a production designer at the Gomel State Puppet Theater. She is engaged in painting, hand weaving (tapestry), painting on fabric (batik) and photography. Ekaterina paints her works from life. She is a multiple winner of the Stopkadr photo contest. Her photos regularly make it into the top ten in this contest.

At the opening of the exhibition, Ekaterina Mokhoreva said that she had a dream of becoming a cartoonist since childhood, but life forced the artist to take a slightly different path. Her school passion for gouache led her to college, where she continued her studies in this direction. After that, Ekaterina became interested in other techniques, such as watercolor and graphics. Then came her passion for photography. The artist also shared her plans for the future: she would like to create a coloring book for children.

A special wonderful atmosphere for the vernissage was created by Olga Meshchenko-Sergey, soloist of the pop vocal studio "Step forward" of the Gomel Regional Palace of Children and Youth Creativity, performing the song "Wonderland".
Irina Danilova, a teacher at the Gomel State Art College, congratulated her favorite student on the opening of her personal exhibition. She noted the artist as a versatile person and told a little about her hobbies during her studies at the college.

The exhibition will last until May 24. Admission is free. We invite Gomel residents to enjoy the unique colors of flowers and spring!
