“I give my vote for a strong and independent Belarus, for the future of our children and peace in the country.” Opinion

From **GK** - 02/26/2022

Larisa Elionorovna Gerasimova, chairman of the district Council of Deputies:

– Caring people live in the Kostyukov region, with an active life position, who support the introduction of changes and additions to the draft Basic Law - the Constitution of the Republic of Belarus. This is confirmed by their interest in discussing the draft amendments and additions to the Basic Law. Meetings with the population showed that among the innovations that people especially actively support are positions related to preserving the historical memory of the heroic past of our people. On the territory of the district there are 77 military graves and 38 monuments of military glory, which testify that every step towards Victory was paid for with the blood of soldiers of the Great Patriotic War. I give my vote for a strong and independent Belarus, for the future of our children and peace in the country.

And together WE are for a sovereign and prosperous Republic of Belarus!
