https://agat-emz.by/mediatsentr/news/dialog-s-saevichem-viktorom-valentinovichem-i-predstavitelem-oao-asb-belarusbank.html

Firefox detected a potential security threat and did not continue to **agat-emz.by**. If you visit this site, attackers could try to steal information like your passwords, emails, or credit card details.

What can you do about it?

Probably nothing, since it’s likely there’s a problem with the site itself.

You can continue with your default DNS resolver. However, a third-party might be able to see what websites you visit.
